

CATALINO GABRIEL S. VILLAHERMOSA

0956 768 6637 || gvillaahermisa@gmail.com || <https://github.com/Gvillaahermosa>

OBJECTIVE BSIT student specializing in Full-Stack Development (React/FastAPI). Seeking an OJT position to leverage skills in web development and cloud integration to contribute immediately to development teams.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python (FastAPI, Django), PHP, HTML, CSS, SQL
- **Frontend:** React, Tailwind CSS, Bootstrap, Material UI, shadcn/ui
- **Backend/DevOps:** FastAPI, Django, Firebase, Docker, Git/GitHub, Arduino

PROJECTS

IDRIS – Integrated Disaster Risk Information System | *React, FastAPI, Docker*

- Co-developed a responsive disaster response platform to visualize risk data and manage alerts.
- Containerized the application using Docker to ensure consistent performance across environments.

ShareSpace Booking System | *React, Firebase*

- Built a real-time reservation platform allowing users to book and manage shared spaces.
- Implemented Firebase Authentication and Firestore to secure logins and prevent booking conflicts.

SNPS Management Information System | *PHP, SQL*

- Designed a comprehensive school management system to digitize student records and faculty data.

EDUCATION

Bachelor of Science in Information Technology Cebu Technological University – Argao Campus | 2022 – 2026

Senior High School Dalaguete National High School | 2020 – 2022
